Senadora Mexico Baja Sur

Lic. Rodrigo Vasquez Colmenares Guzman
Director General de Aeronautical Civil
Secretaria de Coumuicaciones y Transportes
CDMX

Ms Karina Garcia Conde
Aeronautical Consulting
CDMX

Dear Maria / Rodrigo / Karina

This is our second official request for a solution regarding the restrictions of Experimental Aircraft in Mexico.

Based on our first request letter dated December 1, 2020 regarding this subject, we have not received a response addressing our concerns.

We understand that in mid-December, a meeting was held in CDMX whereby senior members of AFAC and regional Comandante attended and this subject was addressed.

We also understand that following that meeting, Comandante of International Airports were instructed to not issue Multi-Entrance Authorizations to Experimental Aircraft thusly denying these type of aircraft into Mexico.

At this point, we still do not have direction regarding the required procedure to allow these aircraft to enter your Country.

This is critical as there are many of these aircraft now in Mexico who somehow have authorization to fly in Mexico as well as there are many US pilots with either homes in Mexico or have vacation plans that cannot enter Mexico with their aircraft.

Your response is requested so that those with experimental aircraft can firm up their plans for entering Mexico.

Perhaps a Mexican form could be provided for the pilot to provide aircraft information so that he could receive permission to fly Experimental Aircraft to Mexico.

There has to be a way to take care of this huge problem.

The people who know about or are involved in this situation are:

Ing. J. Jesus Moreno Bautista
Director General Adjunto de Seguridad aera AFAC

Ing. Pablo Carranza Plata
Director General Adjunto de Aviacion AFAC

Lic. Norberto Moran Bastidas
Comandante regional I MZT

Ing. Alejandro Rangel Ocegueda
Comandante del Aeropuerto Puerto Peñasco, Sonora

Mario Landeros Lizarraga
Comandante del Aeropuerto Loreto B.S.

Ing Joel Zain Reyes Vega
Comandante Del Aeropuerto San Felipe

PA Alonso Dominguez Ruiz
Administrador del Aeropuerto de Puerto Penasco
Lic. Fernando Antillon

Director Del Aeropuerto de Puerto Penasco
fernadoantillion@grupovidanta.com

Sincerely

Jack McCormick
